

## THE DNV GL MEETING 2020

DNV GL, Store Møtesal, Tuesday 16 June, 12.30–16.00

### PROGRAMME

---

#### REGISTRATION - WITH COFFEE, TEA AND WRAPS

#### OPENING

Tom O. Kleppestø, General Manager,  
Shipping & Offshore Network (SON)

Arnstein Eknes, Segment Director OSVs and Special Ships,  
DNV GL and SON Board Member

#### WELCOME TO DNV GL –WHAT’S ON OUR AGENDA?

Jon Rysst, Senior Vice President, DNV GL Maritime

#### ALTERNATIVE FUELS FOR MARITIME

Christos Chryssakis, Business Development Manager,  
DNV GL Maritime

*Based on the last energy transition outlook towards 2050, DNV GL have produced a maritime forecast suggesting how this will impact the major ship segments. Christos will show key findings from this study and how decarbonization will affect the options for selection of future fuels.*

#### BREAK WITH COFFEE, TEA & SNACKS

#### TANKER MARKET – ADAPTING TO FUTURE EXPECTATIONS

Catrine Vestereng, Vice President, Business Director Tankers,  
DNV GL Maritime

*What are typical market trends for tankers these days? Catrine will share insight on technology being relevant for those operating existing tankers or in process of ordering new vessels.*

#### GREEN SHIPPING PROGRAMME – NEW ACTIVITIES?

Narve Mjøs, Director DNV GL Maritime,  
Leader of the Green Shipping Programme

*What’s happening in the Green Shipping Programme (GSP), any new activities starting up? Narve Mjøs will give us a fresh update on key activities and pilots and share insight to the new GSP Service Office for fleet renewal of cargo ships, providing free advice for shipowners.*

## OFFSHORE WIND – FROM LOCAL BREEZE TO GLOBAL ENERGY TRANSFORMATION?

Magnus Ebbesen, Business Lead Floating Wind Advisory,  
DNV GL Energy

*The energy transition outlook from DNV GL predict that offshore wind will play a significant role as part of the energy mix in 2050. This will not happen by itself; the industry is now scaling up for strong growth in many countries. Magnus is monitoring closely what is happening in this segment and will share insight on key focus and challenges for this industry in the decades to come.*

### Q&A, SUMMARY AND CLOSING

**16.00**      **END OF MEETING**

*The seminar is free of charge, courtesy of DNV GL.*

*Corona Virus: We advise everyone to follow recommendations from your own company and health authorities regarding COVID-19. The uncertainty affecting all of us makes it important to consider the necessity of both arranging and participating at different events, and at the same time strive to adapt to “a new normal” where there is a place for professional and networking activity. We want the Shipping & Offshore Network to be a safe arena for sharing insight on new developments and shared reflections on possible consequences for our industry.*
